At this time of year the dirty notes tend to be less conspicuous than in the summer. The Chinese New Year brought a fleod of crisp new dollars on the market, but deterioration is rapid. Sir Hugh also had a talk with Fazil Kutchuk, leader of the Turkish community, and the neting-Greek Consul General, apparently discussing with them the question of a visit by Greek nutionals to participate in Sunday's celebrations in honour of

It was understood the Governor was seriously concerned with the possibility that British troops, of whom a certain number will be on duty on Sunday, may be provoked by exuberant Greek youths.

Sir Hugh was reported to asked Archbishop Makarios that warnings be published on the necessity of avoiding incidents.

Mr Thorneycroft was for saving the £500 million which Blue Streak will cost by the time it is in its underground firing pits on the East Coast in

He argued that Britain might? just as well rely on the free U.S.-controlled Ther rockets being set up here as the difference in range—1,500 miles compared with 2,200-dld not warrant the vast outlay on an independent weapon.

The sudden stretching of the range to 3,000 miles rebuts this opinion and makes Blue Streak probably the most underrated plece of hardware in history.

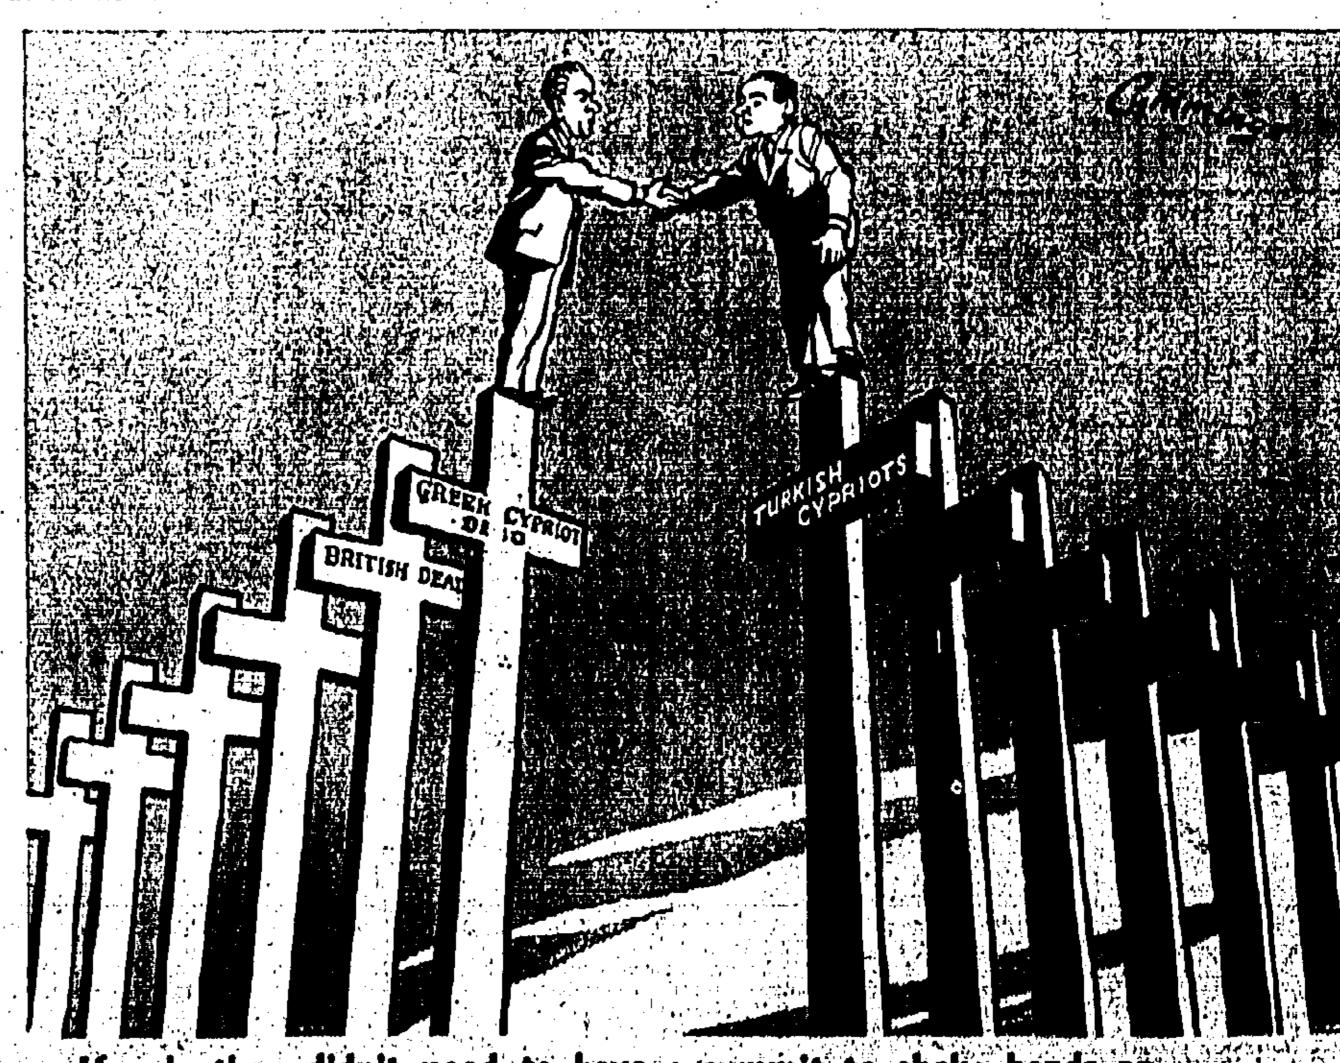

Lord Mountbatten and other naval chiefs were anxious to end Blue Streak, which will be operated by the R.A.F., for a different reason.

They wanted the money invested in Polaris, an experimental and still highly conjectural U.S. rocket designed to be fired from special atomdriven submarines.

But the rocket-inunching submarines will not be available to Britain for 10 years. -(London Express Service).

WINSOME STAG CAN STAGE REPEAT WIN IN MAIN EVENT OF AFTERNOON

1959 Ponies Running In 3 Events

The Hongkong Jockey Club Annual Race Meeting will start tomorrow and continue on Wednesday, March 4, and Saturday, March 14, 1959.

The programme will consist of 30 races. There will be 11 races on each of the first and second days and eight races on the third day.

The first bell will be rung at 11.30 a.m. and the first race run at 12.00 noon on the first and second days. On the third day the first bell will be rung at 1.30 p.m. and the first race run at 2.00 p.m.

first and second days. The most interesting events tomorrow besides the Jockey Cup, Chinese Club Cup and the Sports Club will be the three sections of the Hopeful Stakes. These events will introduce the ntw Australian Subscription ponies to the public.

Here are my estimates of the

A total of 36 countries had following as about the best sent in their entries on time to among the new lot of Australian the Italian committee through Subscription ponies entered for this race: Prominent View All previous records will be (H. Wet Paint and Olympic Day are also considered good enough to extend those named above, and they may cause an upset:

Orange Beauty is my choice and I think it should win, but Crackerjack is not be ignored. Aftab did not impress in its last outing but may do better

Miracle is good, but Horacc Chan will have to do some hard riging if he expects to be anywhere near at the finish.

THIRD RACE Hopeful Stakes (Second Section): 1959 Ponles-One Mile. I expect to see the following third with the same.

On the other hand, Triumphant, which is gifted with an casy movement, should have something to say at the finish. FIFTH RACE Hopeful Stakes (Third Sec-

Losses

The reason for the slight losses in the utility section was that one company was unloading a block of their utility holdings, but most of this has now been absorbed by the market.

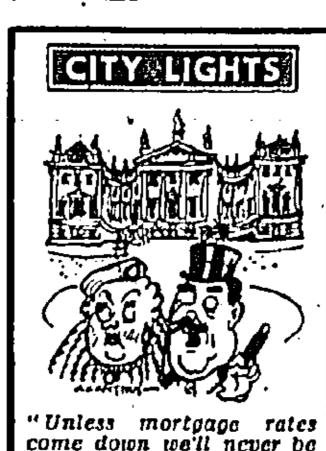

Yaumatis were in good demand with the approach of their dividend announcement, and the weak: share rose from \$94.50 to \$96.50 with talk on Ice House Street that they may be paying an inereased dividend this year.

On the other hand, Phones, which declared the same dividend as last year, were soft, losing 40 cents on the week due to some profit-taking.

In the store section, Watson which declared an unchanged \$1 this year climbed to \$14.40the highest this share has been since 1957. This sudden 60cent gain in a week is reported due to the buying up of these particular shares by a syndicate.
